MURPHY UTILITY CONNECTIONS

MULTI-UTILITY CONNECTIONS WITH A SINGLE POINT OF CONTACT

www.murphygroup.com

Murphy Utility Connections has an established reputation for installing gas, water, electricity and telecoms for residential and commercial developers throughout the UK. We work on construction projects of all sizes, from installing mains to altering or disconnecting services.

Along with giving our clients a single point of contact, we make sure the connection process is smooth and straightforward. **Our multi-skilled teams provide clients with a truly all-inclusive service, laying all mains simultaneously in one visit.**

Our experienced and customer focused staff manage projects to ensure efficiency, safety and completion to the highest standards of quality. Murphy is accredited under the Gas Industry Registration Scheme (GIRS), Water Industry Registration Scheme (WIRS) and National Electricity Registration Scheme (NERS).

Why Murphy?

Murphy Utility Connections operate over 100 live sites at any one time, from single gas connections to full multi-utility schemes for large housing and commercial projects. Why choose Murphy?

- **We offer a one stop shop** - We lay all onsite mains using multi-skilled, directly-employed labour in one visit
- **We keep you informed** - We provide you with a dedicated single point of contact throughout the construction process
- **We have excellent established relationships** - We work closely with local highway authorities and our network of contacts to ensure we deliver on time and in budget
- **We also provide:**
 - Gas connections to combined heat and power (CHP) and district heating schemes
 - Gas and electric commercial connections to generation and export projects
 - Disconnection of gas services and meters.

Domestic

Electricity, water and gas supplies are essential for every housing project so we endeavour to supply new houses and developments with all their utilities, connected on time. With our extensive experience in residential utilities you can be assured of a complete service from start to finish.

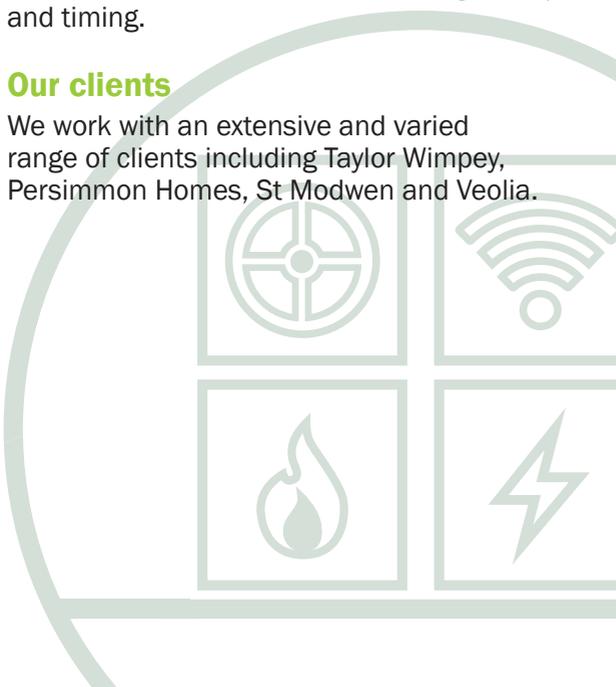

Commercial

Murphy has a wealth of experience in commercial utility connections for office buildings, supermarkets, retail parks, restaurants and fast food outlets, heavy industrial units, swimming pools and schools.

We understand that all commercial installations are individual so our skilled engineers tailor the design and connection to meet our clients' needs. Be it a new installation, renewal, upgrade or alterations to existing systems, we have the expertise to deliver on our promise of outstanding quality and timing.

Our clients

We work with an extensive and varied range of clients including Taylor Wimpey, Persimmon Homes, St Modwen and Veolia.

J. Murphy & Sons Limited is a leading global, multi-disciplined engineering and construction company founded in 1951 that improves lives by delivering world class infrastructure.

Operating in the United Kingdom, Ireland and Canada, Murphy provides a range of construction services to infrastructure sectors including rail, water, power and natural resources. Headquartered in London, we also boast a number of related businesses – Construction and Development, Ground Engineering, Utility Connections, Murphy Plant, and Highways and Streetworks.

Murphy directly employs more than 3,000 engineers, professional managers and skilled operatives around the world. We have skilled expertise in delivering pipelines, process engineering, design, marine, tunnelling, fabrication, bridges and piling, and invest heavily in our substantial holding of plant, equipment and facilities.
